1-105. (Canceled)

106. (Currently Amended) In a network of gaming machines, each of said gaming machines having a user interface activatable by [[the]] a player to affect game display, each of said gaming machines being capable of accepting different wager amounts made by [[a]] the player, a method of awarding one of a plurality of progressive prizes upon [[the]] an occurrence of a trigger condition having a probability related to the amount of the wager, comprising:

making a wager at a particular gaming machine in the network of gaming machines;

initiating a first main game at said particular gaming machine;

determining the trigger condition as a result of said first main game being initiated, said trigger condition occurring upon an event having a probability of occurrence dependent on the amount of the wager made at said particular gaming machine;

triggering a second game to appear at said particular gaming machine in response to said determining of said trigger condition, [[the]] an outcome of said second game determining which one of said plurality of progressive prizes has been won;

displaying said second game to the player at said particular gaming machine in response to said triggering;

Attorney Docket No. 15737US01

activating said user interface at said particular gaming machine by said player during said displaying of said second game to affect the display of said second game;

identifying to the player which one of said plurality of progressive prizes has been won; and

awarding said one of said plurality of progressive prizes that has been won.

107. (Previously Presented) The method of claim 106, wherein said step of determining the trigger condition includes:

- (1) selecting a random number from a predetermined range of numbers;
- (2) allotting a plurality of numbers from the predetermined range of numbers in proportion to the amount of the wager made at said particular gaming machine; and
- (3) indicating the occurrence of the trigger condition if one of the allotted numbers matches the selected random number.

108. (Previously Presented) The method of claim 107 wherein the amount of the wager is an amount in credits.

109. (Previously Presented) The method of claim 107 wherein said step of making a wager includes betting a plurality of credits, and wherein said step of allotting includes allotting one number for each credit bet.

Attorney Docket No. 15737US01

110. (Previously Presented) The method of claim 107 wherein said step of allotting includes allotting one number for each unit of currency of the amount wagered.

111. (Currently Amended) The method of claim 106 wherein each of said gaming ~~machine~~-machines includes a random number generator, and further including initializing said random number generator of each of said gaming machines to generate random numbers from a predetermined fixed range of numbers, said step of initializing occurring at start up and prior to said step of initiating said first main game; and for every game that is played, selecting a random number from said predetermined fixed range of numbers.

112. (Previously Presented) The method of claim 107 wherein said step of selecting a random number includes generating a random number from a random number generator.

113. (Previously Presented) The method of claim 106 wherein said second game appears at the completion of said main game.

114. (Previously Presented) The method of claim 106 wherein said step of identifying occurs at the completion of said second game.

Attorney Docket No. 15737US01

115. (Previously Presented) The method of claim 106 wherein said step of displaying said second game includes displaying spinning reel strips; and further including stopping said spinning reel strips in response to said step of activating.

116. (Previously Presented) The method of claim 115 wherein said user interface includes buttons; and wherein said step of stopping said spinning reel strips includes pressing said buttons of said particular gaming machine.

117. (Previously Presented) The method of claim 106 wherein said step of triggering a second game includes awarding more than one game.

118. (Currently Amended) The method of claim 106 wherein [[the]] each of said gaming machines has a currency denomination; and wherein said currency denomination of each of said gaming machines of each gaming machine is one cent.

119. (Previously Presented) The method of claim 106 wherein said plurality of progressive prizes are of unequal value.

120. (Previously Presented) The method of claim 106 wherein each of said plurality of progressive prizes being a fraction of an incrementing pool.

121. (Previously Presented) The method of claim 106 wherein said second game has a higher probability of success than said first main game.
